

TECHNICAL SUPPORT + MAINTENANCE**KOMAX EMERGENCY PLAN**

You want to be ready for all eventualities? And certain that unplanned downtimes will be remedied as quickly and efficiently as possible? Our emergency plan service gives you the certainty that production downtimes will be kept to a minimum.

Your requirements

- I want unplanned downtimes to be solved as quickly as possible
- I want clearly defined responsibilities, processes and contact persons in downtimes
- I want to increase the availability of our production equipment
- I want to enhance our profitability

The benefit to you

- Clear scenarios and assignment of responsibilities in downtimes
- Faster troubleshooting
- Fewer downtimes
- Rapid resumption of interrupted production

Description

Unplanned downtimes can never be entirely eliminated – they're generally the result of operator errors or poor maintenance. So it's all the more important to have a plan B: Emergency scenarios with clearly defined processes to ensure that the breakdown is resolved as quickly as possible and your production is soon up and running again. Our service and production experts will work together with you to create these scenarios – before the unforeseen situation ever has the chance to occur.

Scope of services

- Definition of emergency scenarios (contacts, means of communication, responsibilities, definition of troubleshooting steps, spare parts, etc.)

Availability

- Komax
- TSK
- Kabatec
